Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office Action mailed September 2, 2004, please enter the  
following remarks:

The **remarks** begin on page 2 of this paper.

Appl. No. 10/006,671  
Statement dated September 30, 2004  
Reply to Office Action of September 2, 2004

PATENTREMARKS

The Applicants gratefully acknowledge the telephonic interview which the Examiner granted on September 1, 2004.

During the interview the Applicants' representatives briefly discussed Dubensky *et al.* (USPN 5,789,245) and further the option of removing the language "about" from claims 1, 8, and 17 when referring to the filter size range. The Examiner required clarification with respect to the Applicants' response filed on December 4, 2003, wherein it was indicated that a pre-filter could be 0.6 microns. It was clarified that the pre-filtering step does *not* refer to the second filtering step having a pore size of between 0.1 and 0.5 µm. The Examiner indicated that the amendment removing the language "about" when referring to the filter size range would not be rejected as new matter. The Examiner further indicated that she would consider further the limitation size range with respect to Dubensky's disclosure of a second filter of 0.65 microns.

CONCLUSION

If the Examiner believes an additional telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,

Brigitte A. Hajos  
Reg. No. 50,971
